

THE

ENVIRONMENTAL MAJORITY COUNCIL

Winning Power for People and the Planet – Together

Donors like you are making a new reality possible — a reality that replaces coal plants with solar and wind farms, preserves public lands for all to enjoy, and provides families with clean air and water.

YOUR LEADERSHIP YIELDS RESULTS ● ● ●

Members of LCV's Environmental Majority Council (EMC) are leaders in this movement. For 50+ years, LCV has fought to protect our environment, build a healthy democracy, and secure a sustainable and just climate future. Thanks to your support, LCV and our 30+ state affiliates are achieving real results:

- ✓ **Millions of jobs and apprenticeship programs** will soon be created as clean energy technologies are launched — thanks to federal investments included in 2022's historic Inflation Reduction Act.
- ✓ 40% (and counting) of people in the U.S. **now live in places committed to 100% clean energy**, and our country is on the path to cutting emissions in half by 2030.
- ✓ **Equitable access to voting was expanded in Michigan**, including state-funded absentee-ballot drop boxes and mail-in ballot postage along with provision of nine days for early voting.
- ✓ Communities most vulnerable to environmental hazards are positioned to experience **less pollution and improved public health** using billions of dollars in federal grants.
- ✓ Families will soon benefit from **lower energy costs and tax credits** for purchases of electric vehicles and efficient appliances.
- ✓ **Policies addressing the climate crisis, environmental justice, and voting rights** are being pursued at all levels of government thanks to the work of diverse climate and democracy champions in office representing their communities.

LCV'S THEORY OF CHANGE ● ● ●

A healthy environment relies on a healthy democracy, and that's why LCV's work focuses on both. LCV and our 30+ state affiliates partner with local communities to protect voting rights, elect climate and democracy champions, and hold policymakers accountable for delivering results.

This kind of success requires sustained effort — and sustained support.

BE PART OF SOMETHING BIGGER

As a member of the EMC, you join more than 500 other committed supporters whose collective power is enormous. EMC members ensure our success by committing a single gift of \$1,000 or more per year. **Each gift stands alongside others to fund critical work that propels our movement forward**, for example:

Conducting a week-long digital advocacy campaign to mobilize activists on key environmental and democracy issues.

\$1,000

Hosting an in-district tour or event series to connect constituents with their members of Congress and inform legislative agendas.

\$15,000

Running targeted statewide election protection campaigns and building relationships with local elections administrators to prevent disinformation and voter suppression in cities, counties, and tribal areas.

\$50,000

GAIN EXCLUSIVE ACCESS

When you join the Environmental Majority Council, you help protect the freedom to vote and advance the shift to a clean energy future. You also receive the following:

- + Invitations to exclusive in-person and virtual events with national leaders.
- + LCV's monthly *Top 5* e-newsletter and additional reports on the impact of your support.
- + Advocacy and volunteer opportunities that advance climate and democracy action.
- + Access to a dedicated LCV liaison to answer questions and receive your feedback.

Join the EMC with a gift of \$1,000 or more and help secure clean air and water, safe and vibrant communities, and an equitable future for all. Learn more:
